DWA_04.3 Knowledge Check_DWA4

_____

1. Select three rules from the Airbnb Style Guide that you find **useful** and explain why.

1.1 Use line breaks after opening array brackets and before closing array brackets, if an array has multiple lines

using line breaks after opening array brackets and before closing array brackets, particularly for arrays spanning multiple lines, improves code readability, maintainability, version control, error detection, documentation, and debugging capabilities.

1.2 Use single quotes " for strings.

It's important to note that the choice between single quotes and double quotes for strings is often dependent on the coding conventions and style guide of the programming language or project you are working with. It's advisable to follow the established conventions of the language or project to ensure consistency and readability.

1.3 Avoid confusing arrow function syntax (=>) with comparison operators (<=, >=).

Using arrow function syntax that is distinct from comparison operators helps improve code readability, maintainability, documentation, collaboration, and reduces the chances of introducing syntax errors. It promotes clarity, consistency, and a better understanding of the codebase for all developers involved.

_____

2. Select three rules from the Airbnb Style Guide that you find **confusing** and explain why.

2.1 Use dot notation when accessing properties.

2.2 Use single quotes " for strings.
What is the different effect of the types of the quotes

2.3 Never name a parameter arguments
